

Please do NOT Support the National Association of Broadcasters Petition 04-160. as usual the Large groups in this country who have the power are trying to stop something that effects their business instead of improving their business. Our government was built on small business and competition. If the FCC supports this petition, the FCC is making it obvious it does not support the US or it's free democratic society Ideals. However, it would show that the FCC does Like the Communistic Ideal of Monopoly. (Last I checked Monopolies are illegal in this country, thus passing this petition is breaking the law)please show your American/Anti-Communist Spirit by voting down this ignorant Petition by this Conglomerate of Media Crybabies who can't stand Competition.

Sincerely,
John T. Eaton
